Words to live by...

Never underestimate your power, and never let others dictate your worth!

Scientific interests

Molecular epidemiology of breast cancer with particular interest in African ancestry populations, area measures of deprivation and their role in inequities and the etiology of cancer.

What is your favorite thing about working at NCI?

The amazing trainees and experts working together to tackle the problem of cancer!

In my spare time, I enjoy...

Karaoke, triathlons (but only sprint ones)

A fun fact about myself is...

I was a NY state champion for the 200yd Fly when i was a teenager and was a walk-on to the Penn State swim team :)
