

Charles Matthews, PhD

Senior Investigator
Metabolic Epidemiology Branch
DCEG Shady Grove

Words to live by...

Don't believe everything you think.

Scientific interests

Cancer prevention and control; exercise and physical activity; methodology for measuring physical activity and sleep

What is your favorite thing about working at NCI?

Learning something new almost everyday.

In my spare time, I enjoy...

Cycling; listening to music; cooking; time with my wife, kids, and dogs (all 3 of them).

A fun fact about myself is...

I never sold my records (LPs) and still buy them, and since I love music I have a lot of them (> 1,200).
