

Ludmila Prokunina-Olsson, PhD

Director, Senior Investigator
Head, Prokunina-Olsson Laboratory
Laboratory of Translational Genomics
DCEG Shady Grove

Words to live by...

Let me help you to do it yourself

Scientific interests

Understanding the role of human genetics
in various aspects of health and disease

What is your favorite thing about working at NCI?

Scientific freedom of going for challenging and important questions

In my spare time, I enjoy...

Gardening (while fighting off deers), sewing and knitting, traveling, and spending time with my family.

A fun fact about myself is...

Trying to learn (and remember) a few words from every country I visited
