

# Atuahene Adu-Gyamfi

Post-baccalaureate  
Laboratory of Translational Genomics

## Education

Bachelors of Science in Biology, Honors/  
Virginia Commonwealth University

## Scientific interests

Cancer Biology, Pharmacology, Health  
Disparities, Gene Therapy, Public Health

## I applied to iCURE because...

I applied to iCURE because I wanted a program that would facilitate my development as a clinician scientist. From my research, I saw that iCURE also had a cohort system and they help create a sense of community, which was something I truly needed in my scientific journey.

## A fun fact about myself is...

My younger brother and I share the same  
birthday (September 19th).

## A few of my favorite things...

I enjoy working out, watching and playing  
soccer. My favorite book at the moment is *The  
Psychology of Money* by Morgan Housel. I am  
really into geopolitics and geography that,  
when I was in third grade, I tried memorizing  
every country and its capital.

## In my spare time, I enjoy...

I enjoy spending time with my family. I  
also like listening to podcasts like The Tim  
Ferris Show and Huberman Lab.

## My hometown is...

I grew up in Ghana, West Africa.
