

## Maya M. Larbi

Post-baccalaureate  
Laboratory of Genome Integrity

### Education

BS, Functional Biology of Animals, Towson University

### Scientific interests

Woman's Health, Pediatric Cancers, Chromatin Regulation, Brain Development

### I applied to iCURE because...

To broaden my scientific network and create long-lasting relationships. iCURE is a program that fosters relationships with individuals from diverse backgrounds and a place to empower and lift up underrepresented communities.

### A fun fact about myself is...

I have been a part of 3 musicals.

### A few of my favorite things...

I like to try new restaurants and activities around the DMV area. I love to go to concerts; I've been to 3 this year already! Lastly, I love interior decorating. I use my room as a canvas to express my creativity.

### In my spare time, I enjoy...

I love to sing; I have been a part of my local church choir since I was 10 and have led the choir since I was 15! I also enjoy painting landscapes. I use this as a stress reliever. I like to create content on social media. This looks like self-care, lifestyle, and beauty content.

### My hometown is...

I was born in Syracuse, NY, but spent most of my life in Frederick, MD.
