

Jessica Calzola, PhD

Program Director, iCURE
Center to Reduce Cancer Health Disparities
NCI Shady Grove

Words to live by...

*"Tell me and I forget; teach me and I may remember; involve me and I learn."
– Benjamin Franklin*

What is your favorite thing about working at NCI?

Cancer sucks—and I'm all about reducing cancer in the world by helping train the next generation of cancer researchers.

In my spare time, I enjoy...

I hang out with my little person—love watching him grow. I also enjoy walks outside and decorating around the house (picking paint colors is NOT EASY).

My favorite traditions/holidays...

Every year, my family made fasnachts (fried, potato-based doughnuts) to celebrate Fat Tuesday (Mardi Gras). My spouse and I continue the tradition. They aren't easy to make and we've had many years of failures, but we do it again each year.
