PLANNING FOR NCI PO1 AND SPORE APPLICATIONS

Lessons Learned

Graham A Colditz, MD DrPH

Grant review

Special review committees (incomplete)

- 1985 Special Review Committee Program Grant Review PO1 CA41108-01, NCI
- 1987 Special Review Committee Program Grant Review PO1 CA46387-01, NCI
- 1988 Technical Review Group Smoking and Tobacco Control Monographs RFP NCI-85070-42, NCI
- 1989 Special Review Committee Program Grant Review PO1 CA50093-01, NCI
- 1990 Special Review Committee Program Grant Review PO1 CA44648-01, NCI
- 1991 Behavioral Medicine Study Section, Ad Hoc Member, NIH
- 1992 RFP/NICHD CRE 91-93 -- Breast cancer and birth control pill: Case/control study of perimenopausal and past oral contraceptive use NICHD
- 1993- Outstanding Investigator Awards, Special Review Committee NCI
- 1993 Special Review Committee, Cancer Center Review for San Antonio Cancer Center Grant, NCI
- 1997 Program Project Review PO1 CA77596-01, NCI
- 1998 Special Review Committee, Subcommittee A - Review San Antonio Cancer Institute, NCI
- 1998 NCI, DCEG Environmental Epidemiology Branch, External Review
- 1998-01 NCI, Subcommittee E, Program Projects, Scientific Review Group
- 2002- 05 NCI, Subcommittee A, Cancer Center Support Grants, Scientific Review Group

Grants as PI or project leader

Program Project: Nurses' Health Study 2002-2006

Program Project: Prospective studies of diet and cancer in men and women: Project 4 Nurses' Health Study II benign breast disease (project leader)

DF/HCC Spore in Breast Cancer

DF/HCC Melanoma SPORE

As member of DF/HCC leadership we wrote guidelines for time line to submit SPORE as biostatistics core could not support applications without adequate lead time given many other demands on their services/collaboration

Tips on preparing team grants

- Begin early
- Allow for internal advisory board review
- Allow for review by external advisory board members
- Structure EAB to be most helpful, not your best friends, include advocates, community members, etc
- Input for strategic planning of PPG or SPORE exceptionally helpful

Managing a successful program

- Consider both the science and the team/funds/collaborations
- May need different admin leaders for these aspects
- Engage junior investigators
- Manage from 5 years out to current day

- Use annual EAB meeting to help focus the team, identify gaps
- Be prepared to reallocate budget across projects

Serve on study section

CERTIFICATE OF APPRECIATION

PRESENTED TO

Graham A. Colditz, M.D., Dr. P. H.

IN RECOGNITION OF A SIGNIFICANT

CONTRIBUTION TO THE

INITIAL REVIEW GROUP

SUBCOMMITTEE E - Cancer Epidemiology, Prevention and Control

FOR THE DIVISION OF EXTRAMURAL ACTIVITIES OF THE

NATIONAL CANCER INSTITUTE

July 1, 1998 - June 30, 2001

DIRECTOR, DIVISION OF EXTRAMURAL
