

Now Open: [PA-18-842](#) Administrative Supplements to Support Cancer Disparity Collaborative Research

Goal

Promote cancer disparities research among NCI-funded investigators and encourage collaboration with cancer disparities-focused researchers. Intention: to accelerate and strengthen multi-disciplinary cancer disparities research in wide ranging areas (cancer biology, prevention, population sciences, translational & clinical studies).

Application Due Dates:

September 10, 2018, September 10, 2019,
September 10, 2020

Application

- Proposal should build on an NCI-funded grant to incorporate a disparities research project
- Proposed project should be within scope of the parent grant
- Collaborative research teams are required

Now Open: [PA-18-842](#) Administrative Supplements to Support Cancer Disparity Collaborative Research

Collaborative Team

➤ Applicant

- Has NCI-funded award (parent grant)
- Has not served previously as PI of disparity research grant
- Parent grant not focused on disparities

➤ Cancer Disparities Collaborator

- Has minority health or cancer disparity research expertise
- Collaborates to implement disparities project
- Brings non-overlapping, complementary expertise
