

Dr. Alison Lin

Deputy Chief, Diversity Training Branch
Center to Reduce Cancer Health Disparities
NCI Shady Grove

Words to live by...

Do what you need to do when you need to do it.

What is your favorite thing about working at NCI?

Working with great colleagues and being able to move meaningful programs forward

In my spare time, I enjoy...

- Board games are a favorite pastime at our house, whichever one takes my kids' fancy at the time.
- I enjoy good science fiction novels. I am a fan of the TOS Star Trek and am happy to say my son appreciates Star Trek more than Star Wars.

My favorite traditions/holidays...

Lunar New Year—it's a big deal in China, really the biggest deal, and it is a tradition my husband and I enjoy continuing with the kids. It's all about family, togetherness, and, of course, yummy food.
