

## *Robin Lockridge, PhD*

Pediatric Oncology Branch  
NIH Campus, Bethesda

### **Words to live by...**

*[The purpose of life] is to be useful, to be honorable, to be compassionate, to have it make a difference that you have lived and lived well.*  
—Ralph Emerson

### **What is your favorite thing about working at NCI?**

There is no shortage of inspiration! Whether directly or indirectly involved with research or patient care, I am always amazed at the lessons I continue to learn and inspiration I gain from my colleagues.

### **In my spare time, I enjoy...**

I enjoy reading and am always looking for new suggestions to add to my list. I also enjoy exploring new trails with my spouse and young son.

### **My favorite traditions/holidays...**

The entire holiday season from Thanksgiving to New Year's Day! I love the food, the music, the puzzles, and creating new memories with my family each year.
