

Sarangelica Alamo-Ortiz

Postbaccalaureate
NCI Frederick

Education

B.S., General Biology, University of Puerto Rico, Humacao

Scientific Interests

- Health Disparities
- Epigenetics
- Cell biology
- Cancer Metabolism
- Neurobiology and Therapeutics

I applied to iCURE because...

I applied to the iCURE program for its multidisciplinary research environment. I think this program could help on my professional development as a young scientist to gained more research experience. Also, I chose iCURE because this program enhance diversity in the biomedical research.

My favorite traditions/holidays...

My favorite holiday is Christmas. There is nothing better that being with relatives and eat delicious food. Also, one my favorite cultural tradition from Puerto Rico is to clap on the plane when every Puerto Rican get back home.

My hometown is...

I was born and raised in Rio Grande, Puerto Rico.

In my spare time, I enjoy...

I would like to travel to other places in the world. While I find time to do the I do like to explore the DMV area, meditates, meet people from all over the world and spend time with closest friends

A few of my favorite things...

- Food: Cooking any type of dessert
- Places: I enjoyed my time at The Grand Canyon, Toronto and Montreal
- Tv show: The Mentalist
