

Angelina P. Van Sprang

Postbaccalaureate
NIH Campus, Bethesda

Education

B.S., Biological Sciences, Duquesne University

Scientific Interests

My scientific areas of interests include endocrinology, reproductive health, oncology, surgical techniques, and health disparities.

I applied to iCURE because...

I applied to the iCURE program because I was interested in pursuing research related to health disparities to broaden my perspectives as a future healthcare professional. This program specifically stood out to me due to its clear focus on increasing diversity in the biomedical sciences and moving towards the reduction of health disparities.

My favorite traditions/holidays...

My favorite holiday is Halloween since I always had a great time dressing up with my cousins and going trick-or-treating together as kids.

My hometown is...

I am from Harrisburg, Pennsylvania but grew up in Tiverton, Rhode Island.

In my spare time, I enjoy...

In my spare time, I like to travel internationally and I have been to Tanzania, Belize, and the Canary Islands so far. I also love spending time outside, especially walking my dog. I enjoy volunteering in my local community as well through hands-on service. Otherwise, you can find me reading a good book or finding new food to try.

A few of my favorite things...

Some of my favorite things are house plants, being in the mountains, and listening to music.
