

Shantel Angstadt, PhD

Postdoctoral Fellow
CCR Bethesda

Education

PhD, Cellular and Molecular Medicine, Johns Hopkins University School of Medicine; BS, Biochemistry, Elizabethtown College

Scientific Interests

- Tumor cell plasticity
- Therapeutic resistance
- Cortical mechanics
- Cytoskeleton
- Mentoring

I applied to iCURE because...

I applied to iCURE because I wanted to train at the NCI, and I wanted to be part of a program working toward making science and research more equitable and inclusive.

My favorite traditions/holidays...

New Year's Eve. Since I was 10 years old, I have spent it with my best friend, Jasmine, and it became one of my favorite traditions.

My hometown is...

Allentown, Pennsylvania

In my spare time, I enjoy...

I love spending time with my husband and pets, making plans and catching up with my friends, self-care, and going to the dog park with my dog, Ted.

A few of my favorite things...

Cake, fancy cocktails, a summer day at the beach
