

Mercedes Cornelius-Muwanguzi

Graduate Student
CCR Bethesda

Education

BS/ES, Physics, University of Cambridge

Scientific Interests

- Anything cancer related
- Immunotherapies
- Drug innovation

I applied to iCURE because...

I have learned the importance of being part of a community with like-minded individuals who have a passion to serve others through high-impact research. I am so fortunate that iCURE is such a community and I am part of it. I am just one scholar, but iCURE is changing lives and communities with this award. I am so grateful.

My favorite traditions/holidays...

Not Applicable

My hometown is...

West Palm Beach, Florida

In my spare time, I enjoy...

I like to read, listen to music, and go to the gym.

A few of my favorite things...

My favorite things are traveling, reading/ exercising, and watching movies.
