

## ***Katelyn Garfinkel***

Sr. Administrative Assistant, *iCURE*  
Center to Reduce Cancer Health Disparities  
NCI Shady Grove

### **Words to live by...**

*“ The magic happens outside of your comfort zone. “*

### **What is your favorite thing about working at NCI?**

Meeting people from various backgrounds and assisting them with reaching their goals. Many people don't know this, but if I was better at science I would have worked in oncology. So, by working here I feel like I am assisting in making a difference.

### **In my spare time, I enjoy...**

I like to bake/cook. I even applied to be on Chopped back in 2011. I also love to read and attend concerts/theatre shows with my husband.

### **My favorite traditions/holidays...**

We have held a Friendsgiving the last four years. I love this tradition because I get to cook and celebrate the ending of the year with close friends.
